Rezin Orthopedics 10th Annual Golf Outing and Euchre Tournament Benefits the Grundy County Housing Authority

Rezin Orthopedics and Sports Medicine held their 10th Annual Golf Outing and Euchre Tournament at the beautiful Nettle Creek Country Club in Morris, Illinois on Friday, September 20, 2013.

“This annual event is a celebration of the amazing ability of people to get back to a normal activity level after a knee, hip or finger joint replacement.” We are very pleased that nearly 200 people enjoyed attending the event this year.” said Robert Alaimo, Director of Marketing for Rezin Orthopedics.

This year Rezin Orthopedics invited 2100 of their joint replacement patients to the event and with the generous support of the 24 sponsors, treated those who attended to free golf/ euchre and a delicious full course dinner with drinks.

To make this event as beneficial as possible, Rezin Orthopedics selects a charitable cause every year to receive the proceeds of the event. This year the Grundy County Housing Authority was selected, which is a cause near and dear to the hearts of many in the community because of the incredibly important service they provide to the elderly and disabled people of Grundy County.

Due to the generous support of the sponsors and donations from those who attended the outing, a check for \$2000 was donated to the GCHA to help pay for the much needed expansion of the parking lot at their Saratoga Towers Housing Complex. “We are so grateful to Rezin Orthopedics and Sports Medicine and many others donors, for their support of this project” Jennifer Olson, Vice President of Development for the GCHA said. “The golf outing was a huge success because of Rezin Orthopedics hard work and dedication to their patients. We were proud to be part of the celebration. Rezin Orthopedics financial support makes a valuable difference in the lives of many deserving individuals and families in Grundy County.”

Dr. Keith Rezin, founder and president of Rezin Orthopedics said “We always look forward to holding this event because it gives us a chance to spend time with our patients and their guests in a casual setting. It is a happy celebration and we enjoy seeing our past patients active, having fun and enjoying life.”

Rezin Orthopedics and Sports Medicine was founded in 1991 and has always been dedicated to providing quick access to top quality, compassionate, orthopedic care, including sports injuries, work injuries, spine care, fracture care, joint pain, hand injuries, foot problems, knee, hip, and finger joint replacement as well as many other trauma and reconstructive procedures.

Over past last twenty-two years, Rezin Orthopedics has earned a reputation as the leading provider of conservative and surgical orthopedic care in North Central Illinois, with locations in Morris, Joliet, Ottawa, and Bolingbrook. Our board-certified, fellowship trained, orthopedic surgeons have advanced training in spine and neck surgery, upper and lower extremity surgery, sports medicine, joint replacements and foot surgery.
